JavaScript Basics

Dan Getelman
@dget

JS IS SO AWESOME

- [Example 1](#)
- [Example 2](#)

Let's Code

Other Cool Things

- node.js — Javascript on the server

- Front-end app frameworks (e.g., Backbone)

- WebSockets — two-way communication with the browser

- Canvas

- Other HTML5 goodies like Geolocation, LocalStorage

- CoffeeScript

Things to Watch For

- Why is my variable not what it should be? SCOPING GONE WRONG- <u>explanation</u>

- Global variables

- Duplicated code

- It's not Java.

Resources / Libraries

- StackOverflow

- Google

- Mozilla Developer Network

- Learn Javascript (MDC)

- jQuery

- jsFiddle

- CoffeeScript

- node.js

- jQuery UI

- d3

- socket.io

- Backbone.js

- Underscore.js

Thanks

- Questions?

- Tweet at me (@dget) or email me (dan@coursekit.com). I can't promise a prompt reply, but will do what I can.
